Dear Dr. Waclawik,

I am pleased to inform you that your paper, "Pleiotropic role of prokineticin 1 in the porcine endometrium during pregnancy establishment and embryo implantation" **was selected by our Editorial Team as one of our "Editor's Choice" articles** for the January issue of Biology of Reproduction. **On behalf of the entire editorial team, we would like to congratulate and express our gratitude to you for choosing to publish such excellent science in BOR.**

Your article will appear on the homepage of the BOR website, in the "Editor's Choice" section. We will also make it free to access for the next several months.

We will promote the article in the SSR newsletter, as well as on social media. If you have a twitter handle for yourself, co-authors, or your lab that you would like us to promote in the tweet, please let me know.

Thank you again for choosing BOR. Please let me know if you have any questions.

Best wishes,

Jenny Kimbel
